RE: Field Inspection, M/015/026, Energy Fuels Nuclear (EFN),
Sahara Mine

Frank Filas, Frank Jensen, and Dave Wham inspected this inactive uranium mine on March 17, 1987. Conditions remained the same as the last site inspection on November 20, 1986. EFN had committed to cleaning up the site by March, 1987.

A follow-up phone call to Bill Almas of EFN revealed that the cleanup work had been delayed by the wet weather. Mr. Almas promised that the site would be cleaned up by mid-April.
